kevin-eduardo

Professional Profile

Telecommunications Engineering student with proven experience in **technical project management**, **process optimization**, and **team leadership**. Track record of successful project delivery under professional standards, improving operational efficiency and ensuring technical quality.

Experience and Achievements

Technical and Documentation Lead

Software Engineering Project – UNI

2025

- Coordinated team of 4 members, achieving 100% on-time delivery of all milestones across 4 sprints.
- Reduced review time by 40% through technical documentation standardization (IEEE).
- Implemented version control system (Git/GitHub) that eliminated code conflicts by 95%.
- Validated 20+ functional and non-functional requirements, ensuring zero critical defects in production.

Campus Director

Innovation Student Community UNI

Sep. 2025 – Present

- Increased participation in technical activities by 45% through data analysis and process improvement.
- Established partnerships with 4+ tech companies, generating networking opportunities for 150+ students.
- Implemented metrics system that improved decision-making and organizational efficiency by 35%.

Director of Technology

Developer Student Clubs UNI

Aug. 2025 – Present

- Manage technical infrastructure for events with 50+ participants, ensuring 99.5% uptime.
- Reduced incident resolution time by 60% through standardized support protocols.

Training Director

IEEE Computational Intelligence Society – UNI

Jun. 2024 – Present

- Designed and delivered technical workshops for 40+ students on API development, software architecture, and cloud computing.
- Co-organized HACK-CIS, attracting 30+ participants from UNI and ensuring technical logistics of the event.

Technical and Management Competencies

✔ Project Management

- Multidisciplinary team coordination
- Operational process optimization
- Professional technical documentation

🔧 Telecommunications

- TCP/IP protocols, routing, switching
- Cisco/Huawei configuration
- Preventive/corrective maintenance

📊 Data Analysis

- Excel (pivot tables, advanced formulas)
- Python (pandas, numpy, visualization)
- Power BI (dashboards, KPIs)

🔗 Technology Stack

- Python, TypeScript/JavaScript
- Linux (Ubuntu), Docker
- AWS (EC2, S3), Git/GitHub

🗣️ Languages

- Spanish (Native)
- English (Intermediate - B1/B2)

🌟 Certifications

- Networking and Cybersecurity – Cisco (2024)
- AWS Cloud Foundations (2024)
- Intermediate Python – CTIC UNI (2022)

Leadership and Activities

 Academic tutor (mathematics, programming) – 30+ students mentored
UNI cultural groups

|

 Participation in 5+ national hackathons

|
